

POD® HD Pro Multi-Effect

Revolutionary HD Processor for Studio and Stage

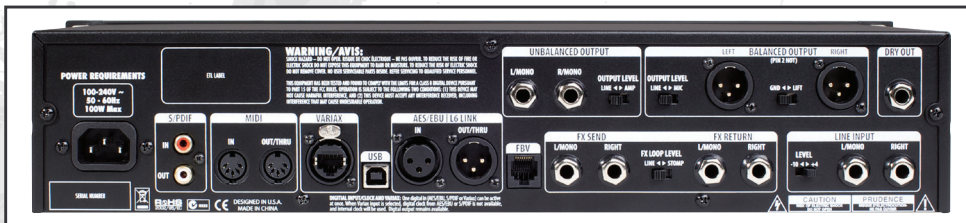

- HD amp models and M-class effects
- Flexible and powerful with full digital and analog I/O
- The complete package for pro players

POD® HD Pro rack-mounted multi-effect processor brings revolutionary Line 6 HD amp modeling and effect technology to the studio and stage. It offers 25 stunning HD amp models, over 100 modern and vintage effects and a comprehensive digital and analog I/O suited for every professional environment. It represents the most complete collection of advanced Line 6 models ever, all within a familiar and intuitive POD package.

Revolutionary HD models capture 10 times more amplifier information than the previous generation. POD HD Pro offers HD tones based on* classic Fender®, Vox® and Marshall® amps, boutique essentials from Bogner®, Dr. Z® and Divided by 13, and more.

It features over 100 M-class effects, which were made famous by Line 6 M13® and M9® Stompbox Modelers. Found on touring pedal boards around the world, M-class effects include a host of lush delays, mods, filters, distortions, compressors and reverbs. Use up to eight effects at once.

POD HD Pro is flexible and powerful enough to handle the most demanding gigs. The rack mount enclosure provides a full set of digital and analog I/O, making it the pro's go-to front-end for any live or recording rig.
